

The Lt. Governor's COVID-19 Computing Challenge

Connecticut Lt. Governor Susan Bysiewicz's COVID-19 Computing Challenge

A statewide challenge to address a global concern

The Need

Connecticut needs computing technology to address the COVID-19 pandemic.

The Invite

Lt. Governor Bysiewicz invites our creative Connecticut students to put their ingenuity to good use and design apps, websites and/or computer programs that help to:

- defeat the spread of the disease;
- aid our communities; or
- encourage and inform everyone.

The Opportunity

Now is your chance to shine. Do your part, help create solutions, and gain recognition for the application of computer technology during this crisis!

The Challenge

Lt. Governor Bysiewicz challenges students in grades 3 through 12 to work individually or as a team to propose *an idea* for a computing technology application (functioning apps are not required).

The Proposal

Submitting your ideas is simple and participation is easy. Visit the [Lt. Governor's COVID-19 Computing Challenge website](#) by May 29, 2020.

For more information, visit the

Be Creative.
Be Smart.
Stay Healthy.

This challenge is inspired by the work of the Governor's Council on Women and Girls: Subcommittee on Education and STEAM.
