## Homes for Homeless

Gretchen Goodrich-Gelarden

Leonard J. TYL Middle School

Education, Health, Vulnerable Populations

### **What problems are you trying to solve?**

*The lack of care, vulnerability to illnesses, lack of shelter and food for the homeless.*

### **What inspired you to address this problem?**

*Me and my team mate were inspired by the sadness we felt whenever we saw a person holding a cardboard sign saying things like "homeless please help".*

### **Describe your idea and functionality:**

*The app will show a page where you can describe what kind of situation you are in and what home would be good for you then it sends a notification to all others that have the app and can donate. The app will keep this notification out until enough money is raised. Next it will send a notification to the user and the user can choose to buy the house or keep the money for other essential items.*

### **Team Members:**

Alesha Chederquist
